

PREVENTION EDUCATION WITH

Curriculums:

Brainwise is an evidence-based curriculum that helps students learn critical thinking skills and make better decisions.

Why Try is an evidence-based curriculum that teaches social and emotional principles using 10 visual analogies.

How it works:

Partners is offering online or in-person prevention education lessons utilizing the curriculums listed above at no cost. This can be ongoing lessons or one time presentations. We are flexible and can adjust plans based on school and organizational needs. Please reach out!
